

PROGRAM LAUNCH: FALL 2025

FAA Aviation Workforce Development Program

ECSU is partnering with the USDOT and the FAA to expand the pipeline of United States aircraft pilots and unmanned aircraft system operators.

Greetings, future aviators!

Are you a rising 11th or 12th grader attending a North Carolina high school? Are you interested in aviation? Great. We have 80 seats in our ECSU – FAA Aviation Workforce Development (AWD) Program. This program offers a year-round structured curriculum with instructions, hands-on activities, and experiences to increase your knowledge about aviation and aviation careers.

- Tuition covered for up to six credits of ONLINE courses
- Free online subscription to King's School's private pilot ground school and Drone 107 prep materials
- Covered cost for FAA private pilot ground written exam
- Covered cost for PART 107 Drone Pilot License
- Cost of the FAA Medical Examination covered
- Any other learning material/aid needed for certification will be provided

Don't wait! Apply today!
