

## The Value of Apprenticeship

The value of college classes plus pay received for training on the job and in the classroom is the equivalent of a \$125,000 scholarship.

| Apprenticeship Year   | Classes, Work & Training   | Pay              |
|---|--|------------------|
| Initial Summer<br>(Pre-Apprentice)  | Six weeks on-the-job training<br>2 community college classes<br>Paid a total of 40 hours per week      | \$9 per hour     |
| First Year<br>High School Senior Year if Accepted as an<br>Apprentice Junior Year | Half a day of high school<br>Half a day on- the-job training and work<br>Paid for time at work         | \$10 per hour    |
| First Year<br>Post High School if Accepted as an Apprentice<br>Senior Year        | On-the-job training and work 80%<br>Community college classes 20%<br>Paid a total of 40 hours per week | \$10 per hour    |
| Second Year   | On-the-job training and work 80%<br>Community college classes 20%<br>Paid a total of 40 hours per week | \$11.50 per hour |
| Third Year  | On-the-job training and work 80%<br>Community college classes 20%<br>Paid a total of 40 hours per week | \$13.50 per hour |
| Fourth Year   | On-the-job training and work 80%<br>Community college classes 20%<br>Paid a total of 40 hours per week | \$15.50 per hour |
