Work-based Learning

**Guilford County is
home to talented
students and great
businesses.**

We connect them.

Across Guilford County Schools, talented, motivated students work toward their dreams and their careers, gaining high-level skills while still in high school. It's an ongoing web of leaders who know industry, and businesses that understand the value of partnering with public schools. The result: work-based learning opportunities that put students on a path to "earn while they learn," empowering them with a degree and a career at the same time. Plans for the 2018-19 and 2019-20 school years, CTE students earned more than \$210,000 through work-based learning opportunities. With this powerful learning experience, students find opportunities to succeed, businesses tap into talent, and everyone's future is a lot brighter.

At the GCS Career and Technical Education (CTE) program, we make that connection.

GUILFORD
County Schools
TOGETHER WE BRIGHTEN

BRIGHT
FUTURE

With classroom learning, work experience and college credit, students and employers get everything they need to reach the next level.

Connect with your Career and College Manager to tap into opportunities that will position you for success.

Our new Career/College Manager is a national program that connects students with career and college opportunities. It is a free, online program that allows students to explore career and college options, apply for internships, and receive credit for work experience. The program is designed to help students prepare for the workforce and college. For more information, visit gcsnc.com/cte.

Work Based Learning

Across Guilford County Schools, talented, motivated students work toward their degrees and their careers, gaining high-demand skills while still in high school. It all begins with teachers who know industry, and businesses that understand the value of partnering with public schools.
