

Subscribing To a Newsletter

For non-Smore users.

If you're a parent, teacher, friend, coworker, or relative and you'd like to subscribe to or "follow" a Smore user's newsletters, this helpful guide is for you!

How to subscribe/follow:

1. Visit their Smore newsletter

In order to subscribe, you need to have some type of access to their newsletter. A Smore user must send you their newsletter directly to gain access to the newsletter.

Please note: Unfortunately, due to privacy concerns, you cannot search for a user or a newsletter through Smore.

2. View the online version of the newsletter

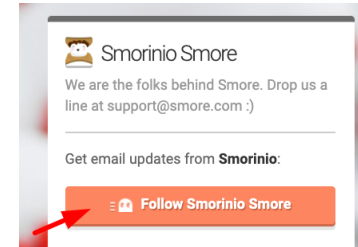

You can only subscribe to a newsletter if the newsletter is opened through its link and you are connected to the internet.

Is this email not displaying correctly? [View it in your browser](#)

This means you CANNOT subscribe by just viewing the emailed version of their newsletter.

3. Click "Follow" on the right side of the newsletter

Select the orange button that says "Follow [name of Smore user]"

4. Add your Full Name and Email Address

Fill in your full name and email address. Then click "Get updates from [name of Smore user]".

A screenshot of the sign-up form within a Smore newsletter. The form asks for "Full Name:" and "Email:" with corresponding input fields. Below these fields is a blue button labeled "Get updates from Smorinio". At the bottom, a small note states: "A confirmation email will be sent to your inbox. Easily unsubscribe at any time."

5. Check your email for the subscription confirmation

Go to your inbox and wait for the confirmation email. This can take up to five minutes to arrive. Once the email has arrived, open the email and click "Confirm address and get updates". If you do not complete this step, you will not be confirmed and have not successfully subscribed.

Please note: If you do not receive a confirmation email, it may have ended up in your "Spam" or "Promotion" tabs. Be sure to check all of your tabs for this email.

6. Manage your subscriptions

In the subscription page, choose which Mailing Lists you would like to subscribe to by selecting "Allow emails." Then click "Update subscriptions" to officially subscribe.

FAQs

What does subscribe or "follow" mean?

Subscribe and "follow" are used interchangeably in Smore and mean the same thing. Both terms mean that you would like to be added to a Smore user's Mailing List. This way, when a Smore user wants to send their newly created Smore newsletters, you will be included in their Mailing List.

Keep in mind that it is up to the discretion of the Smore user whether or not to send their newsletters to the Subscriber Mailing List.

Do I need to create an actual Smore account to subscribe to a Smore user's Mailing List?

No, there is no need to sign up for a Smore account if you only want to receive updates.
