Welcome Parents:

I would like to welcome back returning parents and introduce myself to new parents. My name is Patrice Scott and I am the Computer Science teacher at Kernodle Middle. Hopefully, everyone had a fun and safe summer break.

I am very excited to start our new year of remote learning. With the start of this new year, I am committed to helping your child be successful and reaching their highest goals.

I will make sure that all students have the resources they need to navigate successfully through Computer Science. Do keep me informed of events in your child's life and share questions and concerns as they relate to your students' progress. It would be most helpful to check your students' assignments and grades weekly to assist with achievement. Feel free to reach out via email (scottp@gcsnc.com) or Canvas.

We are going to have a great year!

Patrice Scott
