

Starting middle school is a big deal.

So is our commitment to student safety, health and happiness.

It's normal to be nervous about starting middle school.

Guilford County Schools is committed to easing the transition between elementary and middle school by focusing on helping your child find their place and build confidence, preparing them to take on new and exciting challenges.

We know that your child's health and well-being is your top priority, so we've made it ours, too. The teachers and staff in every GCS middle school community help make sure your child is safe, cared for and respected. These elements are key to cultivating a positive learning environment, which is essential during this time of transition and growth. Because GCS is ready for anything, your student can focus on learning, and you can feel confident that they're happy and healthy.

A welcoming and active community preparing your child for the future with:

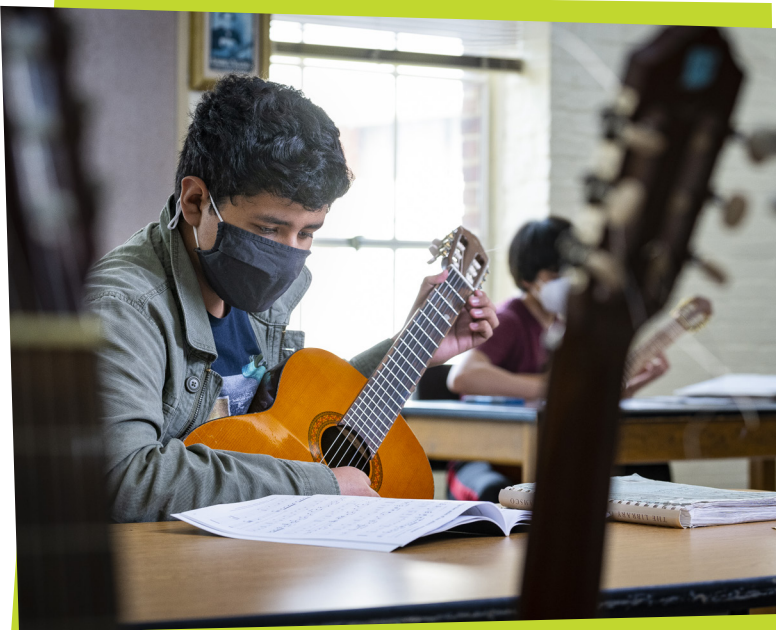

- Dedicated devices for every child as a one-to-one district as well as excellent instructional materials and library access.
- Caring, highly credentialed and professionally trained teachers, ranking GCS 10th nationwide for board-certified educators.
- Several of the highest performing schools in the state and nation.
