Academy of Biomedical Technology at the Academy at Smith

"Biomedical technology utilizes a combination of technical skills to ensure that caregivers have the technological assets needed in order to care for patients."

Trey C. Everette, Cone Health

Students in this program will:

- Use the equipment and tools of medical researchers to explore some of today's most pressing medical challenges
- Receive mentorship from industry professionals as part of their course of study
- Graduate with industry credentials, professional, technical and research skills and college credits

Majors available:

- Biomedical Technology
- Pharmacy Technician
- Mental Health Technician

Post-graduation potential:

- Graduates are prepared for college majors such as nursing, biomedical engineering and pharmacy.
- Students desiring to go to work immediately have training and credentials for jobs such as mental health technician or social worker, pharmacy technician or biomedical technician.
- Salary potential ranges from \$39,000 per year for laboratory technicians to \$124,000 for pharmacists.

Who should apply:

- Rising ninth-grade students. At this time, transportation will not be provided.
- Students interested in careers in biomedical technology, health science, pharmaceutical science or mental health.

How to apply:

- Complete an online application using the link at www.gcsnc.com.
