Mission

Prepare students to be college and career ready for the 21st century. We teach character education as earnestly as we teach the core curriculum. As such, we teach and instill in our students a healthy respect for the diversity of the world around them, as well as a genuine love for learning.

Vision

Seek to expand minds, inspire creativity, and build character.

Students at Kirkman Park Elementary have two great options with which to engage the curriculum. Students can learn the curriculum through our traditional program where students receive rigorous and individualized instruction in a small setting. Or families have the option of engaging in the curriculum through our Spanish Immersion magnet program. In the immersion program, students are given instruction 100% of the time in Spanish by native Spanish Speaking teachers.

What We Offer

- Spanish immersion K-5
- Committed and enthusiastic Spanish Native Speaking Teachers
- Cultural Diversity
- Artistic Development
- Rigorous Spanish Instruction

Points of Pride

- Parent/Community Involvement
- Native Spanish teachers
- Children will have a linguistic and a cognitive advantage over monolingual children
- Research has shown that immersion students can achieve as well as – and in most cases better than – non-immersion pupils on standardized tests

Students in the Program

- Students will be fluent in reading, writing, and speaking in Spanish.
- Students will learn how language works and use it spontaneously.
