Mission

Prepare students who honor community, show excellence, and think critically leading them on a path to a college or career of their choice.

Vision

Improve life outcomes by fostering community, inspiring character, and motivating life-long learners.

What We Offer

- Multi-age classrooms in PreK and Kindergarten with an emphasis on flexible learning and materials that are whole child focused
- PreK and kindergarten teachers focus on practical life, sensorial learning, mathematics, language, and cultural areas
- PreK-5th grade, teachers incorporate frequent movement breaks and embed hands-on activities that align to the curriculum

Points of Pride

- Encouraged to become critical thinkers and innovators while connecting their learning to the real world
- Participate in hands-on learning with math manipulatives, Lego building blocks, play dough, and STEM kits
- PreK and K have full time co-teachers
- Teachers receive weekly professional development in best teaching practices with full time building coaches

Students in the Program

- Experience a learning environment that facilitates learning for the whole child
- Opportunities to interact with the community they live in and understand the connection to themselves
- Engage in learning that teaches them to care for their overall wellness
