# Hours Requirements

- 14 hours of service of any type (non-paid peer tutoring, church events, etc.)
- Each hour of service must be listed on the NHS Hours Log, which will be uploaded to Canvas at the end of every quarter
- For each service activity, the supervisor must complete a Google Form acknowledging the service was completed.

# No-Contact Option for Hours

For each hour you wish to earn, you may create an assignment for a class in which you are currently enrolled. The assignment can be a worksheet (with answer key), a presentation, a project prompt, or something else. It should only take you an hour to create it, and it should be designed to be finished in a class period. Once you have completed creating the assignment, upload it to Canvas to receive the hour of credit. Please also indicate that you have created an assignment on your hours sheet.

You must complete a separate assignment for each hour you need to complete. Each assignment can be for the same class or different classes, but please make sure they are for classes in which you are currently enrolled. Please also indicate the course and teacher for which the assignment is intended.

# How to Join the Canvas Course

A Canvas course has been created so that you may upload your hours sheet virtually. You must upload your hours sheet once at the end of every quarter. To join the Canvas course, please visit this URL:
