### What to expect at both events:

Families are invited to take advantage of exciting summer programs and essential school resources to start the year strong! In addition to resources for all students, there will be dedicated support for families with children entering kindergarten, 6th, and 9th grade to help ease key school transitions. On-site support will include a mobile computer lab to assist with school form completion, vision screenings, blood pressure checks, and other health and wellness resources. Plus, the first 800 attendees will receive a free meal—so arrive early and make the most of this opportunity!
