Legislative Agenda 2018

STATE ISSUES

K-3 Class-Size Reduction-Mandate

- Repeal the K-3 class-size reduction-mandate (HB 1030 and HB 13), restore flexibility in adjusting class sizes to meet local staffing needs and concerns, and fully fund enrichment teachers.

Career and Technical Education

- Strengthen economic development by providing funding to GCS and Guilford County to pilot P-TECH school in advanced manufacturing and high-growth industry needs.
- Streamline process to use skilled industry and trade professionals as teachers or co-teachers in K-12 schools.
- Expand paid internships and apprenticeships for high school and community college students in high-growth career and technical professions; incentivize industry to provide STEM employees on-loan to K-12 public schools to serve as co-teachers.

Teacher and Principal Pipeline

- Address personnel shortages by removing the six-month wait-period and health insurance penalty for state retirees.
- Increase teacher and principal pay to the national average within four years and provide incentives to recruit and retain personnel for difficult-to-fill positions.
- Hold veteran teachers and principals harmless from salary reductions.
- Create student loan forgiveness program and other financial incentives to encourage top-performing high school and college graduates to pursue teaching as a profession, particularly in STEM subjects.

Pre-Kindergarten

- Expand high-quality pre-kindergarten programs to serve all four-year-olds.

School Funding Formula and Tax-Free Status

- Provide adequate funding for strong public schools, including adequate funding for classified employees.
- Provide a simplified, flexible and more streamlined approach to funding schools that weights allocations based on poverty, disability, English Language status and other student needs without reducing current levels of funding.
- Restore tax-free status to all local education agencies and traditional public schools.
- Oppose portability proposals that leave too few dollars in schools with the highest concentrations of student poverty.

Legislative Agenda 2018

FEDERAL ISSUES

- Fuel economic growth by providing low-interest bond dollars or other federal infrastructure funding for public school capital needs; prioritize funding by student poverty rates.
- Maintain categorical funding for Title I, Title II, Title III and Title IV based on high concentrations of poverty, disability and other student needs.
- Maintain public schools' ability to seek Medicaid reimbursement for IEP-required health and related services for students with disabilities.
- Oppose portability proposals that leave too few dollars in public schools with the highest concentrations of poverty, disability, English Language learners and other student needs.
- Oppose any dismantling of key protections and rights provided to students with disabilities under the Individuals with Disabilities Education Act and the Americans with Disabilities Act.
- Oppose policies that reduce funding for public schools that serve the highest concentrations of poverty and other student needs, or that negatively impact public school educators, students or families.
- Streamline the pathway to citizenship for DACA (Deferred Action for Childhood Arrivals) or similarly situated students.
