

Comprehensive Progress Report

Mission: At MBSE, we work hard, work smart, and work together to grow minds and grow relationships.

Vision: At MBSE, our vision is that every child ends every year ready for life at their level and on track for a college or career of their choice.

Goals:

- Increase reading proficiency in grades 3-5 from 42.6% to 45.6% by June 2025.
- Increase science proficiency in 5th grade from 41.9% to 44.9% by June 2025.
- Increase math proficiency in grades 3-5 from 58.9% to 61.9% by June 2025.
- Reduce chronic absenteeism from 28.6% to 23.6% by June 2025.

	KEY	B2.03	The school has established a team structure among teachers with specific duties and time for instructional planning.(5143)	Implementation Status	Assigned To	Target Date
Initial Assessment:			<ul style="list-style-type: none"> In 2020-21, grade level teams planned together to ensure every student on the grade level got the same excellent instruction. The comprehensive schedule ensured time for planning during the day and once monthly for an extended period after school. In 2021-22, we adjusted the comprehensive schedule to allow for extended planning to occur twice monthly during the school day on opposite weeks of the normal PLC collaboration. The periodicity proved unhelpful for students, however, so we reverted to a consistent weekly schedule that added one extra PLC collaboration during students' Specials once monthly. In 2022-23 and 2023-24, we increased the number of PLCs per week to 2, kept the once-monthly afterschool planning time, and added an explicit expectation that grade levels establish a once-weekly planning time that they manage themselves. <i>Initial Assessment:</i>			<ul style="list-style-type: none"> In 2020-21, walk throughs, feedback, and opportunities to conference and reflect were provided to teachers multiple times per year as a part of the annual evaluation process. In 2021-22, all staff continued to receive feedback in accordance to the state and district evaluation process. We also developed Continuous Improvement feedback lenses for structuring low-inference feedback specific to the classroom environment; self-regulated student culture; student engagement; teacher, student and task; and set of teacher skills sequenced for rapid improvement. Teachers received feedback on these instruments from the principal, an instructional lead, or other teachers. In 2022-23, we added one digital Continuous Improvement lens focused on student response as well as an admin-only dashboard to monitor the data produced by the lens. In 2023-24, we added additional Continuous Improvement lenses. 	Limited Development 09/24/2022

<i>Initial Assessment:</i>			<ul style="list-style-type: none"> In 2020-21, we hosted 9 student teachers from UNCG and Greensboro College. We leveraged those teachers as substitutes where needed and hired one into a full time position. We also established relationships with excellent teachers outside MBSE in the event we had positions come open. We evaluated all staff consistent with the NC and GCS evaluation policies. In 2021-22, we hosted 3 student teachers from Greensboro College. We continued to monitor opportunities to establish relationships with substitutes and people outside our school who might excellent potential future candidates before we had known positions available. We hired two people at the end of the year as a result of those efforts. In 2022-23, we hosted 1 student teacher from Greensboro College. We also recruited teachers to fill anticipated vacancies and were fully staffed for 2023-24 before the 2022-23 ended. --	-----	-------	--	-----------------------	-------------	-------------

Initial Assessment:	<ul style="list-style-type: none"> • In 2020-21, we developed a comprehensive schedule that allowed for tiered instruction at core, supplemental, and intensive levels. We also shifted a co-teacher position into an interventionist position and used Title I funds to purchase a part time supplementary reading teacher. These roles allowed us to begin establishing a more robust support system at the supplementary and intensive levels. • In 2021-22, we adjusted our comprehensive schedule to accommodate differences in district minutes per content area and maintained our interventionist position. We also added a teacher position that would coordinate and provide supplementary and intensive instruction in grades 3-5, allowing our Curriculum Facilitator to focus more heavily on tiered instruction in K-2. Using a new district tutoring program, we added two additional part-time supplementary teachers, bringing our total to three. We also increased the fidelity of our Intentional Problem Solving process that manages the tiering of student supports. • In 2022-23, we increased the number of tutors from the district tutoring program working with students to 5. Due to funding, we were not able to sustain the supplementary and intensive support teacher position. Instead, we funded a .4 full-time-equivalency position to manage the Intentional Problem Solving process. • In 2023-24, we maintained the Title 1 funded .4 FTE position to manage IPS and we will increase the total number of tutors working with students to 8. <i>Initial Assessment:</i>			<ul style="list-style-type: none"> In 2021-22, we developed schoolwide expectations for common areas. Following a schoolwide schedule, teachers explicitly taught the expectations over the course of several days. During that time, all staff reinforced - via teaching and incentivizing - the expectations during the school day. Also in that year, the No-Nonsense Nurture approach to classroom management was adopted as a support for teachers. All new teachers as well as those seeking support in classroom management were trained in the approach. In 2022-23, we realized a need to better align our core social, emotional, and behavioral supports with one another and with a more intrinsic motivation system. Initial Assessment:	<ul style="list-style-type: none"> In 2020-21, we sent weekly schoolwide communications to parents by multiple means (phone, Class Dojo, website, Facebook). We also sent interim reports and report cards once each quarter. Teachers communicated directly with parents through phone, text, and Class Dojo and we used socially distant "porch visits" where needed to reestablish communication. At multiple points during the year, we held drive-thru events for parents to pick up supplies and talk with teachers. We also collected feedback from parents in the fall and spring by digital survey and used Title I funds to make our bi-lingual parent liaison a full time position. This included adding a special phone number Spanish speaking parents could call and text. In 2021-23, we made weekly "Tuesday Folders" and monthly newsletters a schoolwide standard. We held a "Walk the Neighborhood" event at our most densely populated area, and sent automated calls, emails, and texts when students were tardy to help keep parents aware of when that happened. To help parents better understand what their students are learning and how they are performing compared to grade level standards, we developed student proficiency reports that went home as mid- and end-of-quarter communications. We continued use of Class Dojo, translating all communications into Spanish, the Spanish parent line, and collecting parent feedback by digital survey.
