Successful book fair and attractions book fundraiser

Review and respond to coaching comments

No coaching comments at this time

Approval of last meeting's minutes

Winslow made first motion, Capps second

Old Business

none

Indicators to Assess-Create-Monitor

Indicators Assessed

Objectives Planned For

Monitor (updates made)

Additional Agenda Items

Action Taken:

Review fully implemented indicators to begin collecting evidence of completion: Key Indicators A1.07 & A2.04

- Grade levels are asked to come up with digital files that will serve as evidences for our SIP
- Google Folder will be created and shared for grade levels to add documents

Review subgroup data from EOG

- every grade level and subject area grew
- School Performance Data overview- shows students who made the growth they were expected to make.
- -2 to +2 means students met the growth expected
- below -2 means we didn't meet the growth expected
- Based on our data, overall we did not meet growth. -3.42 is a significant number that shows we have work to do with growth schoolwide.
- Sub groups show that our SWD, white students and our AIG students did not meet growth. These students are showing proficient overall but they are growing the least.
- Instructionally, we have to move to push students who are already proficient to ensure they are making growth. Teachers should be mindful when putting scaffolds in place for only students who need them instead of whole class scaffolds.

Media Technology Advisory Committee- responsibilities of the committee

- Seek feedback as needed from your grade level.
- Share information with your grade level as needed.
- Review materials in the event of a book or resource challenge.
- Assist Media Specialist with media program plans, goals, etc. as needed
