Wallace Words...

****SCIENCE Project Assistance**** I will be staying after school on Monday, December 3, 2018 to assist students with their Science Projects. Any student staying, will need to be **PICKED UP PROMPTLY AT 4:00PM!**

*******FIELD TRIP*******

On Tuesday, December 3rd we will go on our first field trip of the year! Students may wear jeans and a Murphey (or Uniform) shirt. Students bringing lunch from home, please remember that everything must be disposable! Parents, please let me know if you're planning on joining us on the field trip! Students that elect to bring money, will be completely responsible for their money! Please keep the weather in mind for Tuesday...the high will be around 50°F!

I'm noticing a drop in homework! I will send home an update of missing assignments for each student!

Calendar

-  **Dec. 3 – Science Project Help (3pm – 4pm)**
-  **Dec. 4 – FIELD TRIP – Greensboro Science Center**
-  **Dec. 5 – Science Fair Projects/Reports/Boards Due**
-  **Dec. 6 – 5:00 - Science Fair, 6:15 - PTA Meeting, Winter Concert**

This Week's Homework

Math
Module 3 lessons 5 – 7, multiplication and division using units of 6, 7, and 8.

Reading
Students are to read EVERY NIGHT for at least 30 minutes. Reading should be logged and initialed by parent. This includes the weekends, teacher workdays, and holidays as well.

Science
Science projects, report, and board are due on Wednesday, December 5, 2018!

PTA News

Please consider being apart of our Murphey PTA! Its ONLY \$5.00 to join! You are the “P” in PTA! Be a part of this wonderful committee dedicated to supporting our students and school!

HAPPY BIRTHDAY TO ALL
DECEMBER BIRTHDAYS!

Curriculum Tips

Literacy

READ, READ, READ!

Read at least 30 minutes daily including weekends. Students have begun checking out a classroom book to read at home. Students must return the book before they are able to check out another book. Every student has a “Power Goal” for reading and should continue to work on that goal when reading. Make reading a daily priority.

We are well into our BUGS unit! Your child is becoming an expert on their bug! Pick their brain about their bug and challenge them to help them become even better!

Math

We have begun Module 3. In this module, we are learning multiplication and division of using units of 6, 7, and 8. We have learned how to use tape diagrams, number bonds, and skip counting as strategies to help us multiply, divide, and learn our facts! If your child is struggling please contact Mrs. Wallace (phone - (336)294-7380, email - wallacl@gcsnc.com or send a note in the folder) for additional resources and suggestions.

Science

Its Science Fair/Project season! Science Projects, Reports, and Boards are DUE ON 12/5/18! If you need any assistance, please let me know!
