New Business

The School Improvement Subcommittee met and made revisions to the SIP that would meet district expectations and drive the work of several priority areas in the school. SLT will review the [2023-24 SIP](#) and vote to approve/reject the plan by end of day November 9. Once approved by SLT, the SIP will need approval from the entire staff. This will be handled at the November 14 planning period meetings.

SLT discussed ways to conduct a mid-cycle Teacher Working Conditions check-in where the entire staff was able to provide their feedback that aligned to the TWCS but also allowed everyone to provide feedback concerning items outside of the TWCS. SLT reps agreed to meet with their departments and gather this feedback by end of day December 1. This data will then be reviewed by SLT at the December 5 meeting. To help guide these conversations, the [2022 TWCS Results](#) were provided along with these categories:

- Time
- Facilities and Resources
- Communication
- Community Support and Involvement
- Student Conduct and Discipline
- Teacher Leadership
- Professional Learning
- Other
- 3 priority concerns from each department

Dobbins asked if teachers were still receiving pay for coverage and Scott confirmed they do.

Mitcham asked about the installation of the vape detectors and Scott confirmed they are coming but he was unsure of the installation timeline. He shared that the system would alert administration to a specific bathroom where vaping was detected and even links to the new camera system that would allow administration to potentially pinpoint who was entering and exiting the bathroom at the same time of vape detection.

Bigham asked about the new building elevator being repaired as it is still broken. Scott confirmed the work order has been entered.

Parent and Student Questions / Announcements

None

The meeting adjourned at **8:41am**.

The next meeting is December 5 at 8:15am in room 111.
